

Sign up to receive emergency alerts

Your safety is our top concern. Clackamas County wants to make sure community members know about emergencies as they happen, to keep you informed and safe. By enrolling in the Clackamas County emergency notification system, you'll be informed before, during, and after incidents.

Powered by Everbridge, our emergency notification system allows us to send emergency messages to your home phone, mobile devices, email, and more. These emergency messages could include notices to evacuate, shelter-in-place, shelter locations, water and power service disruptions, and other extremely important life safety information.

To receive these life-safety alerts, community members should opt-in and provide their contact information. Don't worry, we will never sell or share your personal information with any third-party organizations.

Before the next emergency hits:

- Sign up and encourage your family and friends to enroll for emergency alerts at www.clackamas.us/dm/publicalerts or scan QR code.
- Sign up for your work, home, school addresses and anywhere you recreate.
- Make sure your cell phone is set up to receive emergency alerts. This may include turning on your location setting.
